Subject: Approval ratings for Tampa Bay area state legislators, survey conducted for SaintPetersBlog.com

Date: April 10, 2013

Executive Summary:

This poll of 4,095 registered voters in the Tampa Bay area of Florida was conducted from Monday, April 8 to Tuesday April 9, 2013. This poll used the registered voter lists supplied by the state of Florida as of March 3rd, 2013. The sample of voters that were called included random samples of registered voters in several state legislative districts within the Tampa Bay area of Florida.

The issues surveyed included the favorability of the state legislature, as well as 2 state senators and 6 state house representatives.

Methodology:

The poll was conducted by an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the registered voter population in the district being polled. The demographics used were: party, race and age.

The voters polled were chosen at random within the registered voter population inside of Florida state senate districts 20 and 22 as well as Florida state house districts 60, 64, 67, 68, 69 and 70.

The scientific results shown in the summary below have the sample size and margin of error shown next to each question asked.
